Who we work with

We work with governments, sector agencies and HE institutions worldwide to support sustainable improvement, share global best practice and build international networks. We have led or participated in projects in over 50 countries in Asia, Australasia, Africa, North and South America, Europe and the Middle East. In addition, over 350 member institutions, including almost all UK HE institutions and over half of the universities in Australia, use our services. You don't need to be a member to take advantage of our services, and, in some cases, we can support delivery in languages other than English.

The close cooperation we have with Advance HE is very important in our plans to recognise and support staff in their commitment to teaching excellence and in their continuous professional development”
